DEBORT							
REPORT		1: .1 6:		. 6			
1.	All information provided in the Stormwater Management Concept Report						
2. 3.	Table of contents with numbered pages						
3. 4.	Professional certificat	Signed & sealed  Professional certification					
5.	A narrative to support the site development design and demonstrate that ESD will be achieved to the MEP						
6.	Calculate stormwater volume requirements for ESD targets and quantity control						
7.	Calculation showing approximate size of ESD practices and quantity control						
8.	TR-55 and TR-20 calculations for existing drainage areas						

9.	TR-55 and TR-20 calculations of proposed drainage areas
10.	Calculations of proposed hydrology analysis for runoff rates, storage volumes, and discharge velocities
11.	Discharge calculations demonstrating stable conveyance of runoff from the site
PLAN REC	QUIREMENTS
1.	All information provided on the Stormwater Management Concept Plan
2.	Final site layout including exact impervious area locations and acreages of impervious areas
3.	Final proposed grades and spot elevations (as necessary)
4.	Proposed drainage area map showing all points of discharge from the site
5.	Location and size of ESD practices used to the MEP and all nonstructural, alternative surfaces, micro-scale practices, and structural practices used
6.	Design details and specifications
7.	Preliminary erosion and sediment control plans showing limits of disturbance, sensitive areas, buffers, and forests that are to be preserved, proposed phasing, construction sequencing, proposed practices and stabilization techniques
8.	An overlay plan showing the location of stormwater ESD practices and proposed erosion and sediment controls
9.	Signed and sealed
10.	Professional certification
